

EFT™ EXPRESS AND EFT™ ENTERPRISE COMPARISON

EFT is available in Enterprise or Express editions, organized to meet the needs of small, medium, and enterprise businesses. Compare features below to find exactly what you need, or call us—we're here to help.

Anything marked with an asterisk in the table requires an additional module.

Features	EFT Express	EFT Enterprise
Core Server Features https://www.globalscape.com/managed-file-transfer		
FTP transfers	Y	Y
SSL/TLS & Certificate Management	Y	Y
Authenticate users against internal or external data sources	Y	Y
Active Directory authentication including user impersonation	Y	Y
Resource & access controls (disk quota, mac connections, etc.)	Y	Y
Secure remote administration of settings & users	Y	Y
Execute a process or send an email based on the triggering of an event	Y	Y
IPv6 and Windows Server 2012 Gold Certified	Y	Y
Security policies and controls	Y	Y
Run on virtual machines (VMware, Hyper-V, XenServer, etc.)	Y	Y
LDAP Authentication integration	N	Y
Delegated administration to limit admin control	N	Y
Backup and restore configurations easily with a single click	N	Y
Encrypted folders - EFT's built-in, Secure-Data-at-Rest Solution	Y	Y
SFTP Module https://www.globalscape.com/managed-file-transfer/sftp		
SFTP transfers	Y*	Y
SSH Key-based Authentication	Y*	Y
HTTP/HTTPS Module https://www.globalscape.com/managed-file-transfer/https-http		
HTTP/S transfers	Y*	Y
Mobile Friendly Web interface	Y*	Y
Use Web Services (WS) calls to invoke workflows	Y*	Y
HTTP Strict Transport Security (HSTS) - web security policy to protect websites against protocol downgrade attacks and cookie highjacking	N	Y
Express Security Module (ESM) https://www.globalscape.com/managed-file-transfer/express-security		
Active monitoring and alerting of PCI DSS violations	Y*	N
Run PCI DSS compliance reports	Y*	N
FIPS-Compliant Libraries	Y*	N
Advanced security options including data sanitization (wiping) and idle account cleanup	Y*	N

Features	EFT Express	EFT Enterprise
Advanced Security Module (ASM) https://www.globalscape.com/managed-file-transfer/asm		
Active monitoring and alerting of PCI DSS violations	N	Y*
Run PCI DSS compliance reports	N	Y*
FIPS Compliant Libraries	N	Y*
Advanced security including data sanitization (wiping) and idle account cleanup	N	Y*
Integration with Antivirus (AV) and Data Loss Prevention (DLP) using ICAP	N	Y*
RADIUS, RSA SecurID (Two-Factor authentication)	N	Y*
CAC authentication	N	Y*
SMS authentication	N	Y*
SAML (Web SSO) authentication that integrates seamlessly with your IdP	N	Y*
Web Transfer Client (WTC) https://www.globalscape.com/managed-file-transfer/web-transfer-client (Included in HTTP/HTTPS module)		
File Transfer integrity Checks	Y*	Y
Session Transfer Queue	Y*	Y
Resume, Stop, Start Transfers	Y*	Y
Drag-and-Drop interface	Y*	Y
Workspaces Module https://www.globalscape.com/managed-file-transfer/workspaces		
Ability to share EFT folders with colleagues or external partners easily via browser	Y*	Y*
EFT Outlook Add-In for Workspaces (Ad hoc, person-to-person file transfer)	Y*	Y*
Mobile Transfer Client (MTC) https://www.globalscape.com/managed-file-transfer/mobile-transfer-client		
Android and iOS Mobile Apps allows for data synchronization	Y*	Y
OpenPGP Module https://www.globalscape.com/managed-file-transfer/open-pgp		
Encrypt, decrypt, and sign data with OpenPGP	Y*	Y*
DMZ Gateway® https://www.globalscape.com/managed-file-transfer/dmz-gateway		
Add an additional security layer by using a reverse and forward proxy	Y*	Y*
Auditing and Reporting Module (ARM) https://www.globalscape.com/managed-file-transfer/auditing-reporting		
Audit to SQL Server and run reports	Y*	Y*
Audit to Oracle instead of SQL Server	Y*	Y*
AS2 Protocol Module https://www.globalscape.com/managed-file-transfer/as2		
Send and receive EDI documents using the Drummond certified AS2 protocol	N	Y*
Automation https://www.globalscape.com/managed-file-transfer/automation-efficiency		
Schedule automated workflows on a recurring basis	Y*	Y
Copy/Move files	Y*	Y
Download/Upload files	Y*	Y
Monitor folders; cleanup of target folders	Y*	Y
Monitor inbound and outbound file transfers in real time	N	Y
Data retention/cleanup policies for targeted folders	N	Y
Quickly connect to AWS or Azure storage moving data from on-premises to the cloud or from EFT in the cloud to a separate instance of cloud storage.	N	Y
UserAccount Action - for requests in which users might ask that an organization remove all traces of their account.	Y	Y
Advanced Workflow Engine (AWE) https://www.globalscape.com/managed-file-transfer/advanced-workflow-engine		
Build advanced workflows and pick from over 200 automation actions, including XML/CSV parsing, database connectivity, SNMP, web services, etc.	N	Y*

Features	EFT Express	EFT Enterprise
Accelerate Module https://www.globalscape.com/managed-file-transfer/accelerate		
The Accelerate module for EFT Enterprise enables high-speed transfers over high latency networks using a patented technology over UDP.	N	Y*
Insight module https://www.globalscape.com/managed-file-transfer/eft-insight		
Business and operational intelligence platform providing visibility inot server health, file transfers, Event Rules, and compliance	N	Y*
Remote Agent Module		
Provides centralized control for automating transactions from distributed systems; automate interactions between branch offices, point-of-sale terminals, business partners, field agent laptops, or other remote systems and your EFT server residing at your corporate office.	N	Y*
High Availability		
Active-active clustering capabality to ensure business continuity	N	Y*

About HelpSystems

HelpSystems is a people-first software company focused on helping exceptional organizations Build a Better IT™. Our holistic suite of security and automation solutions create a simpler, smarter, and more powerful IT. With customers in over 100 countries and across all industries, organizations everywhere trust HelpSystems to provide peace of mind. Learn more at www.helpsystems.com.
